-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 19-21, drawn to an end-user system comprising an interface to a storage media for storing content and a multimedia device for playing the content and whereby the one or more wavein devices and/or ports are opened prior to the playing or rendering of the encrypted digital content so as to block each of the wavein devices and/or ports from recording of the decrypted digital content, classified in class 707, subclass 104.

II. Claims 1-17, drawn to a method on an end-user-system to prevent an unauthorized recording of multimedia content as a result of rendering of at least part of the multimedia content, classified in class 705, subclass 51.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as an end-user system comprising an interface to a storage media for storing content and a multimedia device for playing the content and whereby the one or more wavein devices and/or ports are opened prior to the playing or rendering of the encrypted digital content so as to block each of the wavein devices and/or ports from recording of the decrypted digital content. Invention II has separate utility such as a method on an end-

user-system to prevent an unauthorized recording of multimedia content as a result of rendering of at least part of the multimedia content. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Behrang Badii whose telephone number is 571-272-6879. The examiner can normally be reached on Monday-Friday.
